RE: North Texas Regional Center Application

Dear Mr. Kruzka,

As President of Windmill Farms Association, Inc., the homeowners' association for the Windmill Farms development in Kaufman County, I would like to offer our public support for the approval of the North Texas Regional Center as an EB-5 regional center. Proposed by North Texas EB-5 Regional Center, LLC, this project will create a multitude of new jobs, fostering significant community development in Kaufman County.

North Texas EB-5 Regional Center, LLC, is prepared to develop a number of new residential and commercial properties in the Windmill Farms development in Kaufman County, which will add value, create new employment opportunities, and bring new residents and workers to our community. The applicant's proposed North Texas Regional Center will draw in new investors through this program as well as through its indirect effect of bringing recognition and development to the area.

North Texas Regional Center will bring new opportunities and investment into Windmill Farms and Kaufman County. In addition, the existing residents will benefit from the new projects, begun for the North Texas Regional Center and by unaffiliated investors.

Please accept this letter as a formal endorsement of our support for the North Texas Regional Center.

Sincerely,

Jeff McKenney  
President
